## Hollingsworth & Mangum Take on New Roles

13 February 2006 – *ATI Alldyne* – Huntsville, Alabama -- (Oakes) - Larry Hollingsworth has been appointed Manufacturing Coordinator for tungsten scrap for the Huntsville facility. In this new position, Larry will be instrumental in the preparation of hard scrap for use as a feed material for the APT expansion. Larry has been with Alldyne since November 1980 and is currently the Manufacturing Coordinator at the Gurley facility. He will report to Junior Pugh when he assumes his new responsibilities on February 16, 2006.

Tena Mangum has been appointed Plant Manager for the Gurley facility effective February 16, 2006. In this new role, she will report to Ed Klaphake, Operations Manager. Tena will be responsible for the engineering, manufacturing, and shipping of grade powders. She has completed several courses toward her APICS certification and will graduate from Athens State University in May with a BS degree in Business Administration. Tena has been with Alldyne since August 1994.

Please join me in congratulating Larry and Tena on their new appointments.
